OK. Sorry,

Ex. 5 Deliberative Process (DP)

Ex. 5 Deliberative Process (DP)

Hopefully this version is less confusing.

I think they all have been addressed but yes the comments are confusing.

I worked on revisions yesterday, but I think I still had a couple unresolved comments. I can send what I have if you like.

Hi all,

I was able to read through the response to public comments last week and have incorporated my edits and comments in the attached. I didn't get a chance to read through the larger summary of the public comments to do a compare but rather read the response document as a standalone. This was one of the best response documents I have reviewed since working in IRIS. Well done!!!

I will be out of the office next week but will be happy to discuss any questions or concerns you have with my edits/comments when I return.

Congrats!

Thanks,
Samantha

Vince and Samantha,

Please find attached the ERD draft and Response to Major Science Comments for benzo[a]pyrene. Both clean and compare (to the public comment draft) redlines are included. The Tox Review is in an "unformatted" version. We are having difficulties with HERO making Word crash so we have "turned HERO off". Following your review we will send the document to TIS for debugging and then check all links. We also need to add HERO links to the preamble, but will wait for your review before we have an SSC work on that task.

Ex. 5 Deliberative Process (DP)

I like to thank Kathleen, Martin, and Karen for all the hard work. There were an extensive number of comments to comb through. Its a really good Tox Review and we should be proud.

Jamie

Also, the public comments can be found on the share drive at
